Orlando, Fla. (April 22, 2011) - This Earth Day SeaWorld Orlando celebrates the world we share with the debut of the all-new killer whale show, “**One Ocean.**” The presentation of these extraordinary animals connects guests to the sea with a new level of energy and excitement, all while educating and inspiring guests to make a difference in this world.

The new Shamu show - along with other all-new experiences and adventures at both SeaWorld and Discovery Cove - tops Orlando’s must-see list for families on summer getaways.

“**One Ocean**” features SeaWorld’s majestic killer whales as ambassadors of the sea, and the ocean as the center of our natural world. At the core of the show is the inspiring and educational message that both animals and humans are part of one world, with one ocean, and its future is in our hands to cherish and protect.

“**One Ocean**” brings to life SeaWorld’s mission in the most powerful way yet,” said Jim Atchison, president and chief executive officer of SeaWorld Parks & Entertainment. “This show is what guests love about our parks: thrilling entertainment that educates and inspires you to celebrate, connect and care for the world we share.”

There's more to do at night

Summer Nights at SeaWorld is a nighttime spectacular and the only place to celebrate when the sun sets over Central Florida's theme parks. The park's daytime favorites change to nighttime spectacles, showcasing the park in a whole new light with Shamu Rocks, a Shamu show driven by a larger-than-life, rock-n-roll beat. Summer Nights also includes a sky-filling fireworks finale, an all-new, uproarious sea lion show and hottest of all, Manta, Orlando's most unique roller coaster, under the stars. Catch "Summer Nights at SeaWorld" every evening, June 25 - August 14.

New at Discovery Cove

The new **Grand Reef** takes a day at Discovery Cove - an all-inclusive tropical retreat in the heart of Orlando where guests swim with dolphins, hand-feed exotic birds in a free-flight aviary and relax on pristine beaches - to another level. The all-new saltwater reef is filled with thousands of tropical fish in shallow and deeper waters leaving guests to explore where they feel most comfortable. Snorkeling takes place among canyons inspired by reefs from around the world and guarantees sights of amazing exotic sea life ranging from spotted eagle rays and zebra sharks to lionfish and eels. For the daring, **SeaVenture** is an innovative, underwater walking tour where guests - wearing dive helmets - will feel right at home under the sea, getting up close to sharks and lionfish (safely behind glass), velvety rays and even star fish or sea urchins.
